

## **Pets**

All pets must be leashed and not allowed to roam freely. Pets are not permitted on the golf course at any time. Pet waste must be picked up and properly disposed. Disposing in the storm sewers is not appropriate since they drain directly into the lakes and cause problems to irrigation pump stations.

Please note that the installation of a dog fence does not relieve the owners of their responsibilities for proper dog control per Manatee County & Sheriff's Department ordinances which state:

“Dogs residing in yards with invisible fences may be outside while under direct control by their owner or some other individual, but may not be left outside unattended. Dog owners leaving their dog outside unattended, even with an invisible fence, may be subject to fines and/or subsequent arrest. Any dog outside its own yard must be on a leash.”
